

## REMARKS

This Office Action Response responds to the Office Action mailed on January 7, 2004. In the Office Action, claims 1-25 were rejected under the judicially created doctrine of double patenting over claims 1-10, 19 and 26 of U.S. Patent No. 6,329,951 ("the '951 Patent"), which is commonly owned by the Assignee of the present application, Research In Motion Limited. Applicants respectfully disagree with the assertion of the Office Action that claims 1-25 of the present application are not patentably distinct from the stated claims of the '951 Patent. Nonetheless, Applicants have filed with this Office Action Response a Terminal Disclaimer which overcomes the double patenting rejection in accordance with 37 CFR 1.321(c). Applicants therefore respectfully submit that claims 1-25 are in condition for allowance. The Examiner is, therefore, respectfully requested to pass this case to issue.

Respectfully submitted,

JONES DAY
